# + INSTALLATION PROCESS

Tool preparation

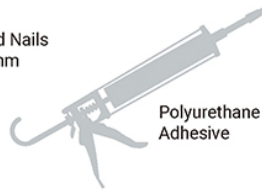

## WHAT YOU WILL NEED

Brad Nail Gun

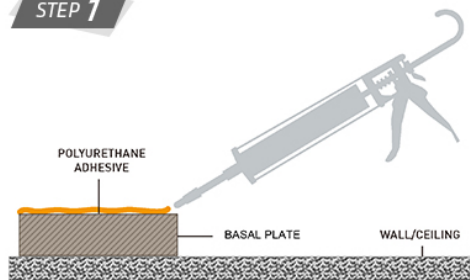

Brad Nails  
30mm

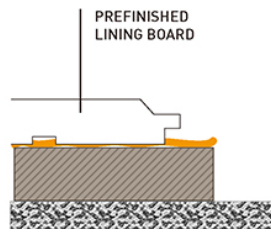

Polyurethane  
Adhesive

### STEP 1

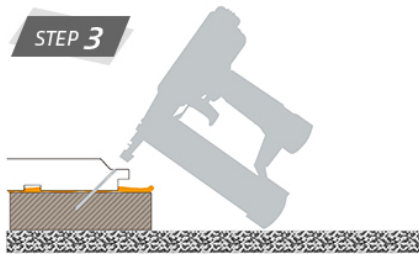

Apply polyurethane adhesive to batten/surface.

### STEP 2

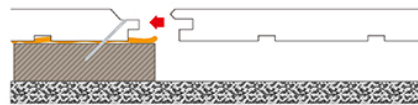

Place first lining board on batten/surface with tongue facing outwards.

### STEP 3

Nail through the protruding tongue on a 45-degree angle.

### STEP 4

Slide in next lining board and continue with adhesive and nailing until you have lined your surface.

### STEP 5

Finish with the Quad or Coverstrip trim to cover the expansion gap and remember to re-seal any cut/raw surfaces. Fix trim with glue surfaces. Fix trim with glue and secure at intervals with Brad Nail Gun.
